We shall be pleased to sign our report in the present and modified form after:

2. RESPONSIBILITY OF THE AUDITORS AND THE MANAGEMENT

- 2.1 The responsibilities of the auditors in a usual examination of financial statements are explained in International Standard on Auditing 200 "Objective and General Principles Governing an Audit of Financial Statements".
- 2.2 While the auditor is responsible for forming and expressing an opinion on the financial statements, the responsibility for their preparation is primarily that of the management of the organization. The management's responsibilities include the maintenance of adequate accounting records and internal controls, the selection and application of accounting policies and safeguarding of the assets of the organization. The audit of the financial statements does not relieve the management of its responsibilities. Accordingly, our examination of accounting books and records should not be relied upon to disclose all the errors or irregularities which are not material in relation to the financial statements.

We wish to place on record our appreciation for the cooperation and courtesy extended to us by the management and staff of the organization during the course of the audit.

Yours sincerely

AUDITORS' REPORT TO THE MEMBERS

We have audited the annexed balance sheet of the PMI Karachi Pakistan Chapter as at December 31, 2006 and the related income and expenditure account together with the notes forming part thereof for the period from April 06, 2006 to December 31, 2006.

It is the responsibility of the management of the chapter to establish and maintain a system of internal control, and prepare and present the financial statements in conformity with the approved accounting standards as applicable in Pakistan. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.
