Session Synopsis

It is often asked to compare Project Management methodologies to enable one to choose a methodology over others as the part of a selection process. Projects in Controlled Environments (PRINCE2) and Project Management Body of Knowledge (PMBOK) being two such Project Management disciplines used around the World are often misunderstood to be competing against one another and thought to have major differences.

In reality, these disciplines often complement each other in many ways. In fact, process clarity and strengths of PRINCE2 can be amalgamated and balanced well with the depth of the PMBOK Guide to evolve a Project Management approach taking advantage of the best of PRINCE2 and PMBOK.

Presentation will cover the following:

1. Introduction to PRINCE2
2. Ways in which PRINCE2 can complement PMBOK
3. Comparative analysis between PRINCE2 and PMBOK
4. Combining the best of PRINCE2 and PMBOK

Free for PMI KPC Members

Non-PMI-KPC Members Fee Rs: 650/=

Presenter: Aamir Thanawala, PMP, Prince2 Practitioner, ITIL Foundation
